

iTunes Restore (PC)

Last verified by Andrew Snodgrass on 05-03-2023

1. [Install](#) and open iTunes

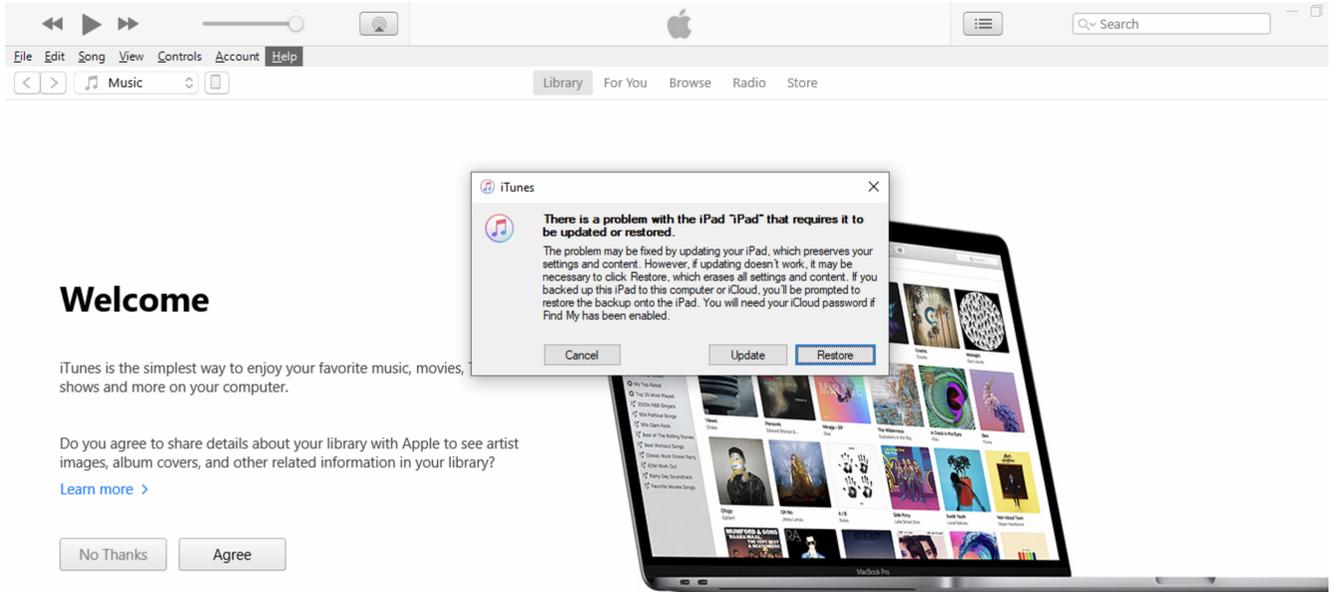

2. Connect the iPad to a PC using a USB to lightning cable.

3. Put the iPad into recovery mode by holding the home button and the power button.

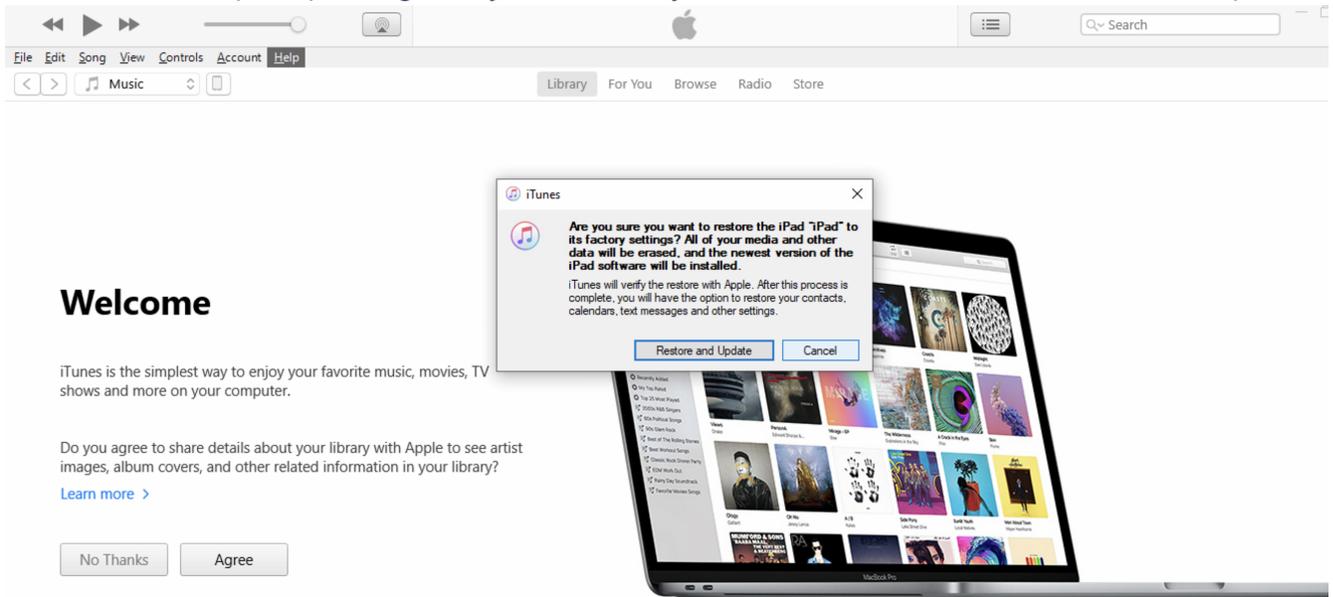

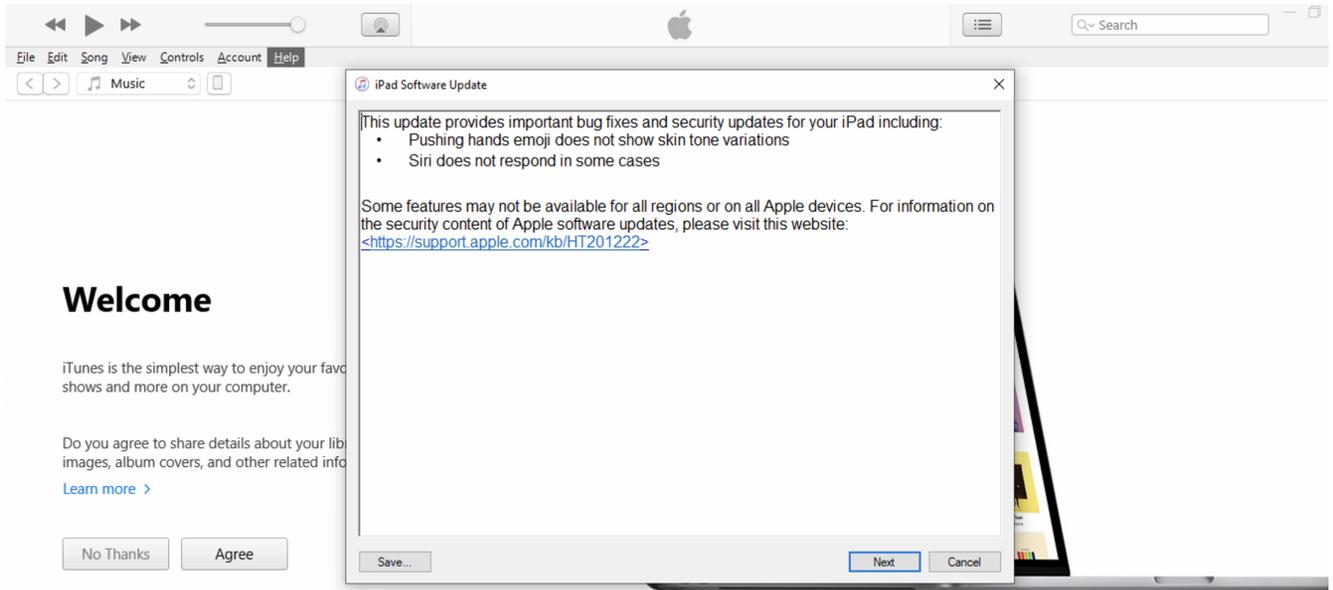

4. iTunes will then prompt if you want to Update or Restore. Click Restore.

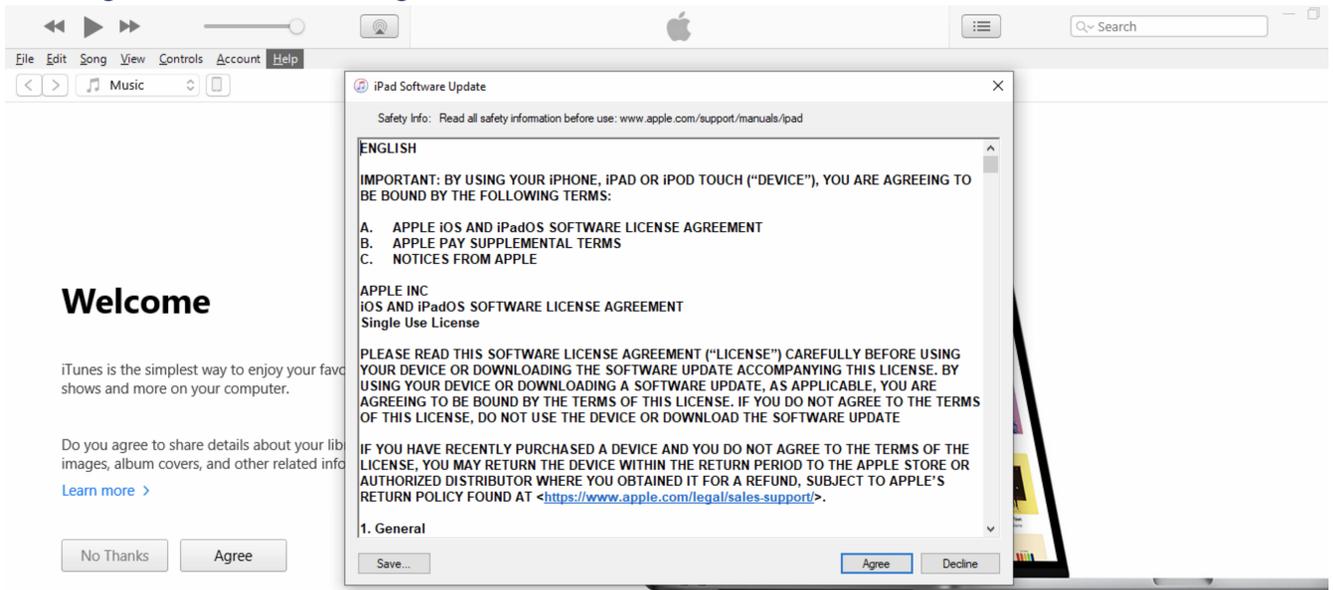

5. You will then be prompted again if you are sure you want to restore. Click Restore and Update.

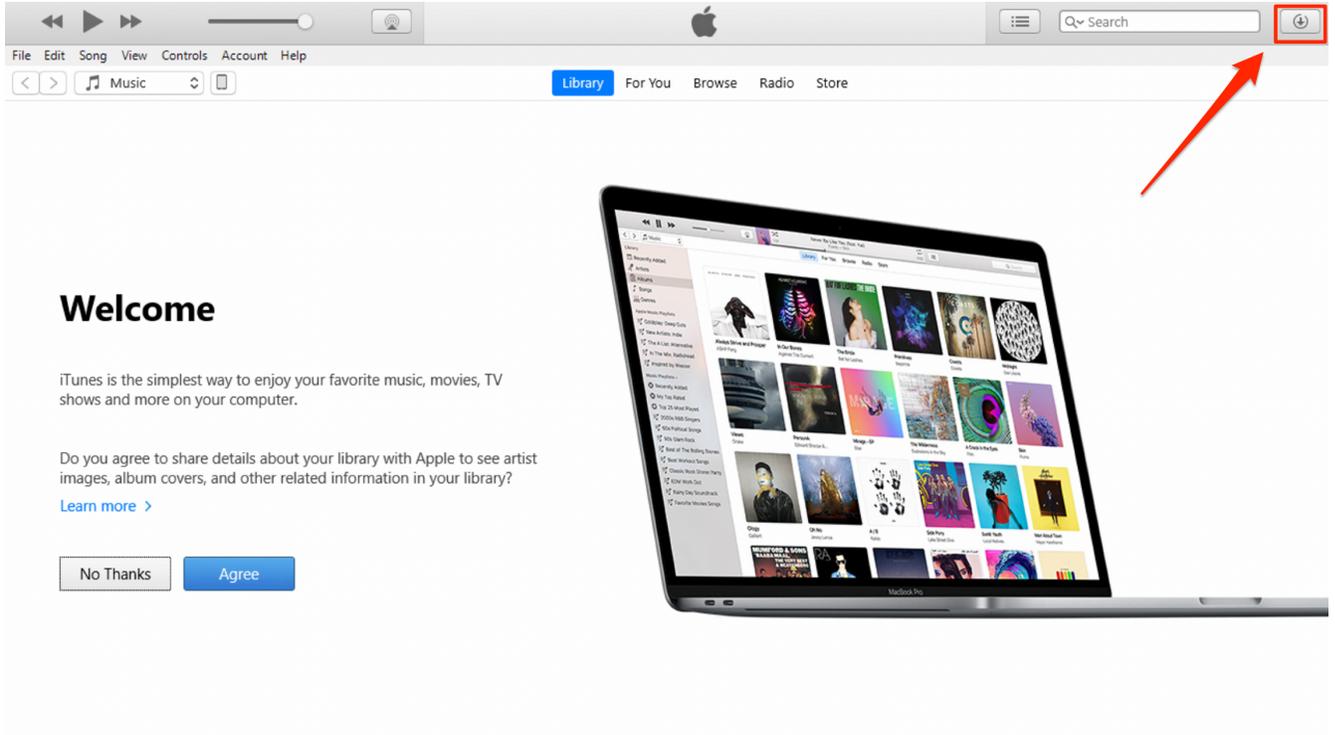

6. Click Next on the Update screen.

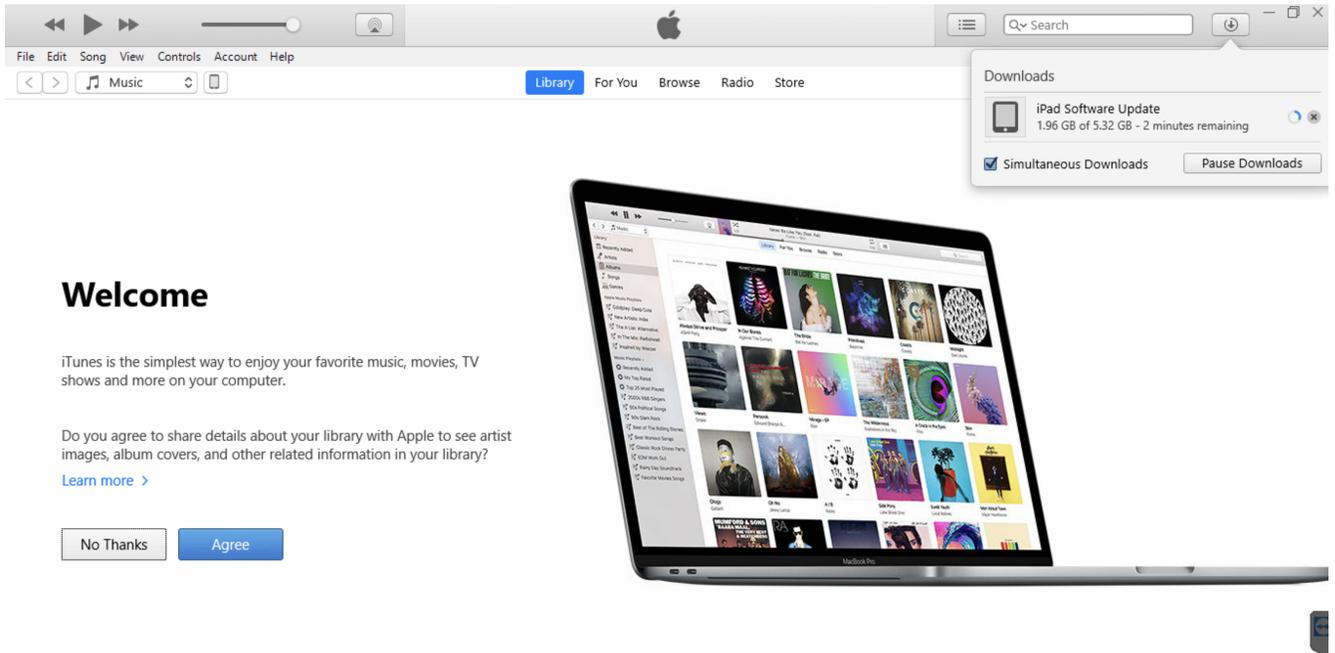

7. Click Agree on the license agreement.

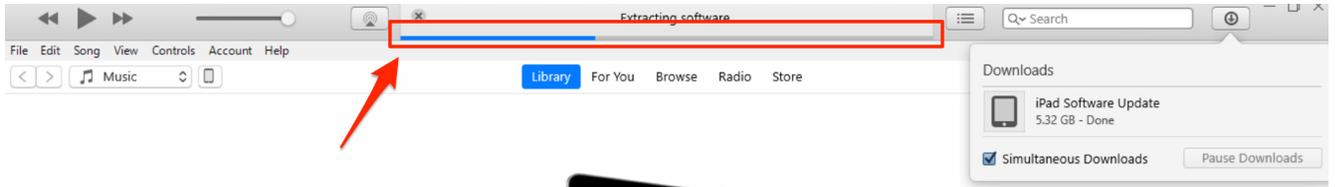

8. iTunes will start downloading the update.

If you click on the download button you can see the download progress.

9. Next iTunes will extract the iPad Software Update.

Welcome

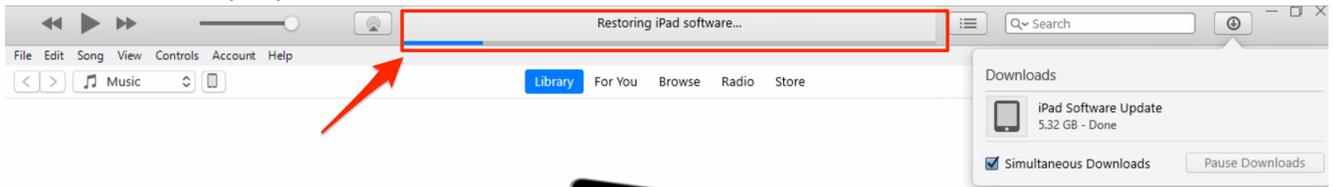

iTunes is the simplest way to enjoy your favorite music, movies, TV shows and more on your computer.

Do you agree to share details about your library with Apple to see artist images, album covers, and other related information in your library?

[Learn more >](#)

10. iTunes will then prepare and restore the iPad.
